“Conflict, Collision, and Confrontation: Sea Turtle Biology and Incompatibility with Marine Debris”

Regina Woodrom Rudrud, Maritime and Fisheries Anthropologist, University of Hawai'i at Manoa, will highlight the seven species of marine turtles, focusing on basic aspects of sea turtle biology and how those aspects create conflicts for turtles living in and among marine debris.

Wednesday 8th April, 2009

6:30pm - 8:00pm

UHM Art auditorium
