“Synthetic Sea Story”

*presented by Beach Environmental Awareness Campaign Hawai‘i
and Aina Haina Public Library*

Kamilo Beach, photo: Suzanne Frazer

“Synthetic Sea Story” is a documentary by the Algalita Marine Research Foundation about their studies of plastic debris in the North Pacific Subtropical Gyre (Great Pacific Garbage Patch), Hawai‘i, and California and how plastic is impacting sea life.

Key researchers are interviewed, including Dr. Anthony Andrady, the leading authority on how plastic breaks down in the marine environment.

Suzanne Frazer and Dean Otsuki, co-founders of B.E.A.C.H. will lead a discussion after the film.

Saturday 30th July, 2011

3:00pm - 4:30pm

Aina Haina Public Library

Beach Environmental Awareness Campaign Hawai‘i (B.E.A.C.H.) is an all volunteer, non-profit organization concerned with bringing awareness and solutions to marine debris on Hawai‘i’s beaches through environmental education, litter prevention/plastic reduction campaigns, and marine debris removal and research.
