Suzanne Frazer, Co-Founder of Beach Environmental Awareness Campaign Hawai'i, will discuss the issue of plastic in the environment and how it is both harmful to our health as well as marine life. Learn about chemicals in plastic, POPs, the impacts of marine debris on marine life and solutions beneficial to our health, marine life and the environment.

Monday 8th April, 2013

6:30pm - 8:00pm

UHM Architecture auditorium
